EXPERIENCE

MULTIDAYA DINAMIKA

Software Engineer - Contract

Jakarta, ID
Feb 2024 – Present

- End-to-End Development: Designed, built, and maintained web applications to ensure smooth functionality, scalability, and high performance.
- Collaboration: Worked closely with cross-functional teams, including designers, marketers, and stakeholders, to align goals and deliver projects on time.
- Feature-Rich Experience: Implemented innovative features, such as real-time ticket availability, secure payment gateways, and user-friendly navigation, to enhance the booking process.
- Merchant Support: Developed backend tools for merchants to manage events, monitor ticket sales, and generate performance insights.
- Continuous Improvement: Regularly released updates to improve app performance, introduce new features, and address user feedback.

MULTIDAYA DINAMIKA

Frontend Developer - Part-time

Jakarta, ID
Nov 2023 – Jan 2024

- Responsive Design: Ensured compatibility with various screen sizes and devices, providing a consistent and optimal viewing experience. **(TypeScript, React)**
- Content Management System (CMS): Implemented an intuitive CMS allowing for easy content updates and management by non-technical staff. **(Strapi)**
- SEO Optimization: Integrated best practices for search engine optimization to increase visibility and drive organic traffic.
- Created and set up a linter and formatter for the existing frontend codebase to improve consistency. **(ESLint, Prettier)**

MULTIDAYA DINAMIKA

Full-stack Developer - Internship

Jakarta, ID
Sep 2023 – Nov 2023

- Responsible for brainstorming, developing, testing, collaborating, code reviewing, debugging, and deploying frontend features in 3 teams. **(GitHub, CI/CD, Unit Test, UAT, SIT, PTR)**
- User-Centric Design: Created an intuitive user interface, ensuring ease of use for secure deposit and retrieval of belongings.
- IoT Integration: Integrated IoT-enabled locking mechanisms and real-time monitoring to enhance security and operational efficiency.
- Backend Development: Built robust backend services to manage user data, track locker availability, and enable secure payment processing.

EDUCATION

UNIVERSITAS YARSI
